REDEFINING THE MODERN ICON

Modern Icon is dedicated to providing high-quality products to military, law enforcement, and the outdoor enthusiast. Whether you need a K9 lead, harness, or collar, you can rest assured the product is thoroughly engineered and solidly constructed.

Our name sake is inspired by our grandparents, the Greatest Generation. As we remember a nation that survived the great depression and prevailed during World War II, we see people that were hard-working, selfless, and resourceful. Not only is that generation iconic, but the products they made were innovative, durable, and dependable. Made in the USA was synonymous with quality that you could count on for years.

As the generations have passed, we are now a society that all too often values speed over accuracy, quantity over quality, and ease over hard work. Many of those valued ideals of the Greatest Generation have fallen by the wayside, and the consequences are evident. At Modern Icon, we strive to make quality products that our grandparents would be proud of—and, because of our lifetime guarantee, our grandchildren will still be able to use. It is our hope that today’s generation will see the people who use our products as the embodiment of service, selflessness, and sacrifice; a true and worthy modern icon.

100% MADE IN THE UNITED STATES OF AMERICA

LIFETIME WARRANTY

Modern Icon warrants and guarantees all products against defects in materials and workmanship with a limited lifetime warranty.

OUR SERIES

At Modern Icon we believe less is more. Therefore, our products are purpose-built to reduce unnecessary features and cost. Our Series were created to easily identify the intended use of each product.

ADVENTURE SERIES — created for dogs, both big and small, who live active lifestyles. Whether your adventure is in the city or the great outdoors, these products are designed specifically for discerning citizens who have come to appreciate our quality and innovation.

DEFENDER SERIES — created specifically for Law Enforcement and those who put their lives on the line to protect our nation. These products have been designed to keep you in the fight and to be easy to manipulate when fine motor skills deteriorate under stress.

OPERATOR SERIES — created for those who comprise the tip of our military spear. These products can be used in multiple applications, and many of these products are built to such exacting specifications that there are now strength rated versions for use as life safety anchor systems.

PRODUCT FEATURES AND OPTIONS

We have taken decades of experience and created products that have been designed to meet the demanding needs of our customers. Each product has been tested and evaluated over the course of the last few years in the field by people we have come to know and trust in the industry for both their depth of knowledge and their open mindedness. While our products have been created to meet the needs of most customers, we know that everyone has their own preference. The following are features offered on our products.

SLINGS

2 POINT OPERATOR SLING

This sling was designed for the Special Operations community members who count ounces and can't afford the luxury of carrying gear that only serves one purpose. The sling easily converts from 1 to 2 point configuration according to the operator's preference and load out. Each feature of the sling has been designed to be manipulated while the rifle is in use and adjustments can easily be made without having to look at the sling to see what your doing, allowing you to keep your eyes on target and your gun in the fight.

SUMMIT LEAD

Our Summit Leads are built to last and designed for your active lifestyle. Leads come in 4ft or 6ft lengths. A large 7" long main handle is standard, with an optional 7" close-control handle available. Multiple layers of heavy duty 1" webbing are used for strength. Each Lead includes a 2" wide clip-in point (near the main handle) designed to be used with a climbing style carabiner—allowing multiple configurations to use the lead. The clip in point is also perfect for threading waste bags.

FEATURES:

- + Optional Close-Control Handle
- + Handle Keeper Loop
- + Heavy Duty Construction
- + 2" Clip-In Point

SUMMIT DOUBLE SNAP LEAD

The Summit Double Snap Lead is designed for urban and outdoor activities. Similar to a traditional Jaeger Lead, A “floating” ring allows the lead to be worn around your chest or waist and provides a hands-free leash that is ideal for hiking and running. A variety of colors, including Multicam, complete the look of your tactical dog leash and match our Summit Collar options. An optional close-control handle can be added to help keep the dog at your side, but can be neatly tucked out of the way using an integrated elastic loop when not in use.

RAPID DEPLOYMENT LEAD

Our Rapid Deployment Lead is an industry first; offering the handler the option of always having a lead attached to their dog yet never having to worry about it getting in their way when it's not in use. The break away attachment strap allows you to then affix the lead to any commercially available harness or collar and does not require modifications to your existing gear. The red pull tab provides a quick reference point for where to grab and once you have decided on where to attach the lead, using it becomes second nature allowing you to keep your eyes on target and get your dog in the fight.

FEATURES:

- + Standard Clip In Options
- + Breakaway Attachment
- + Elastic Housing
- + Quick Reference Pull Tab

MEASUREMENTS:

17" Length when Deployed

MATERIALS:

1" Mil-Spec Tubular Webbing rated to 4,000 lbs

Breakaway Attachment

RIOT LEAD

The riot lead was designed for crowd control work. Our two handle lead takes our standard lead design and incorporates a second handle at 12", allowing the handler to keep their partner close in crowded environments or when around other officers. When not in use, our unique design allows you to tuck the extra handle into an elastic keeper. This prevents it from becoming a snag hazard, but still allows it to be easily deployed when needed. Our integrated 1.5" clip-in points allow the handler to use standard climbing carabiners as emergency attachment points.

FEATURES:

- + 2nd Handle at 12"
- + Tactile Response Points
- + Handle Keeper Loop
- + 1.5" Clip In Points

MEASUREMENTS:

Two 7" Handles
Available in 4ft or 6ft Lengths

MATERIALS:

ESSENTIAL LEAD

The essential lead is a minimalist version of our standard lead. Using one ply of 1" tubular mil-spec webbing, this lead is durable and compact. Law Enforcement Officers love this lead because it's small enough to stow easily in any pocket while still being fully functional. As a lighter weight version of our Standard Lead, it's also a popular option with civilians. It is quick-drying, mold and mildew resistant and extremely durable. Our integrated 1.5" clip-in point at the clip end of the lead allows the handler to use a standard climbing carabiner as a backup clip-in option if desired.

FEATURES:

- + Lightweight Construction
- + Large Handle
- + 1.5" Clip in Point

MEASUREMENTS:

7" Handle
Available in 4ft or 6ft Lengths

MATERIALS:

1" Mil-Spec tubular webbing
rated to 4,000 lbs

AVAILABLE COLORS:

DOUBLE SNAP LEAD

The Double Snap Lead, also known as our Mobility Lead, is available in 6ft or 7ft lengths. The design of the lead incorporates a round snap on each end of the lead and a 1" "floating" ring. Similar to a traditional Jaeger Lead, the Double Snap Lead allows you to stay active with your dog while remaining hands-free. The lead is available with or without a handle. The optional handle is located 12" from the first snap. When not in use, our unique design allows you to tuck the handle into an elastic keeper; this prevents it from becoming a snag hazard, but still allows it to be easily deployed.

FEATURES:

- + Double Snaps
- + Floating Ring
- + 1.5" Clip in Points

MEASUREMENTS:

Available in 6ft or 7ft Lengths

TRACKING LEAD

Our Tracking Leads come in various lengths depending on your needs. Utilizing heavy duty 1" Mil-Spec tubular webbing that's strength rated to 4,000 lbs, the leads are quick drying, mold and mildew resistant and extremely durable. Our seamless integration of tactile response points mark regular intervals and allow the handler to know by touch how many feet of line is between them and their partner without having to look down. Our handle-less design prevents our leads from snagging on environmental hazards avoiding safety issues and unintentional corrections communicated to your partner.

FEATURES:

- + Webbing Body
- + Tactile Response Points
- + Handle-less Design
- + 1.5" Clip In Point

MEASUREMENTS:

Available in 10ft, 15ft, 20ft, 30ft and 50ft Lengths

TACTICAL DEPLOYMENT LEAD

Our Tactical Deployment Lead (TDL) provides the operator with a reliable hands-free option that's built to last and won't get in the way or generate unintentional feedback to their dog. To attach the lead to the handler, we use a heavy duty Quick Release Snap Shackle. Instead of the standard belt loop system, we created a large sewn loop out of mil-spec climbing rated webbing. This allows the handler to simply thread the bite of webbing through any spot on their duty belt or through Molle on their chest rig and simply pass the snap shackle back through for a secure attachment point.

FEATURES:

- + Multiple Attachment Options
- + Static Lead
- + Shackle Release Tab
- + Standard Clip In Options

WAIST LEAD

Our Waist Leads take our Standard Lead design and add a heavy gauge 1" ring to the handle so the handler can clip it around their waist for quick access. Our integrated 1.5" clip-in points allow the handler to use standard climbing carabiners as emergency attachment points and incorporated tactile response points allowing the handler to know by touch how many feet of line is between them and their partner.

FEATURES:

- + Solid 1" O-Ring

1" SUMMIT COLLAR

Inspired by our heavy-duty tactical collars, the 1" Summit Collar is a lightweight collar designed for dogs with active lifestyles. We use lightweight but durable webbing, which is both quick drying and long lasting. A triple pass adjustment system allows for maximum adjustability while conserving space—providing more room for add-on customization. We utilize a magnetic Fidlock® buckle and a heavy gauge welded D ring as a secure point to clip your lead. Sizes small through extra large also have integrated attachment points, compatible with most collar-mounted GPS tracking modules.

FEATURES:

- + Integrated Attachment Points
- + Fidlock Magnetic Buckle
- + Metal D-Ring
- + Minimalist Design

SIZES:

- Extra Small: 10-14in (25-36cm)
- Small: 13-17in (33-43cm)

1.5" SUMMIT COLLAR

Based off of our tried-and-true Rigid Collar platform, the 1.5" Summit Collars provide the same rugged appearance. Since these collars are not designed for military or police work we are able to keep material bulk and weight down to a minimum. The result is a collar that is perfect for every-day activities. We use multiple layers of lightweight but durable webbing, which is both quick drying and long lasting. A triple pass adjustment system allows for maximum adjustability while conserving space. We utilize a magnetic Fidlock® buckle and a heavy gauge welded D ring as a secure point to clip your lead. Sizes small through extra large also have integrated attachment points, compatible with most collar-mounted GPS tracking modules.

FEATURES:

- + Integrated Attachment Points
- + Fidlock Magnetic Buckle
- + Metal D-Ring
- + Minimalist Design

1.5" RIGID COLLAR

The Rigid Collar design allows the handler to use the body of the collar to apply pressure to the points behind the ears to manually "out" their dog from a bite if it becomes unresponsive to your commands. The narrow 1.5" collar allows more room for dogs with shorter necks or room for other functional collars. We use a 1" ISC Klick-Lock buckle in our design to provide an added measure of security preventing accidental un-clipping when the collar is grabbed at the buckle, yet still allows the collar to be quickly un-clipped in an emergency. A loop panel allows identification patches to be affixed.

FEATURES:

- + 1.5" Wide Rigid Body
- + 1" V-Ring
- + ISC Klick-Lock Buckle
- + Loop I.D. Panel

SIZES:

Small: 13-17in (33-43cm)
 Medium: 16-20in (41-51cm)
 Large: 19-23in (48-58cm)
 Extra Large: 22-26in (56-66cm)

AVAILABLE COLORS:

MATERIALS:

ISC 1" Klick-Lock Buckle rated to 2,600 lbs
 V-Ring Clip-in Point rated to 4,000 lbs
 1 1/2" Heavy Scuba Webbing
 1" Mil-Spec Webbing rated to 1,000 lbs

NOT RATED FOR CLIMBING OR RESCUE APPLICATION

2" RIGID COLLAR

The 2" collar provides more surface area on the dog's neck disbursing pressure for dogs that are pullers or perform agitation work in the collar. The Rigid Collar design allows the handler to use the body of the collar to apply pressure to the points behind the ears to manually "out" their dog from a bite if it becomes unresponsive to your commands. We use a 1" ISC Klick-Lock buckle in our design to provide an added measure of security preventing accidental un-clipping when the collar is grabbed at the buckle, yet still allows the collar to be quickly un-clipped in an emergency. A loop panel allows identification patches to be affixed.

FEATURES:

- + 2" Wide Rigid Body
- + 1" V-Ring
- + ISC Klick-Lock Buckle
- + Loop I.D. Panel

AVAILABLE COLORS:

SIZES:

Small: 13-17in (33-43cm)
 Medium: 16-20in (41-51cm)
 Large: 19-23in (48-58cm)
 Extra Large: 22-26in (56-66cm)

MATERIALS:

 V-Ring Clip-in Point rated to 4,000 lbs
 2" Heavy Scuba Webbing
 1 3/4" Mil-Spec Webbing rated to 7,000 lbs

NOT RATED FOR CLIMBING OR RESCUE APPLICATION

3" RIGID COLLAR

This huge collar is for extra large working dog breeds. The Rigid Collar design allows the handler to use the body of the collar to apply pressure to the points behind the ears to manually “out” their dog from a bite if it becomes unresponsive to your commands. We use a 1.75" ISC Klick-Lock buckle in our design to provide an added measure of security preventing accidental un-clipping when the collar is grabbed at the buckle, yet still allows the collar to be quickly un-clipped in an emergency. A large loop panel allows identification patches to be affixed.

Unclipped Buckle

FEATURES:

- + 3" Wide Rigid Body
- + 1 3/4" V-Ring

1" SOFT COLLAR

Using the basic design of our 1.75" Soft Collar, we've crafted a lighter weight 1" alternative. This collar has an adjustable range of 4", a smaller design, and a broader range of sizes. It's a perfect solution for both puppies and smaller breeds alike, but can still accommodate large breed dogs. Made out of the same 4,000 lb rated 1" mil-spec webbing that we use on our Leads and Long Lines, this collar is built to last.

FEATURES:

- + Heavy Duty Mil-Spec Webbing
- + Welded Steel D-Ring
- + Polymer Side Release Buckle

SIZES:

XXS: 7-11in (18-28cm)
XS: 10-14in (25-36cm)
S: 13-17in (33-43cm)
M: 16-20in (41-51cm)

Polymer 1" Side-Release Buckle
1" Mil-Spec Webbing rated to 4,000 lbs
Welded Steel D-Ring Clip-in Point

Unclipped Buckle

Collar Open

NOT RATED FOR CLIMBING OR RESCUE APPLICATION

1.75" SOFT COLLAR

Designed as an alternative to traditional belt buckle style collar designs, our 1 3/4" wide soft collar uses a 1 3/4" ISC Klick-Lock buckle to secure the collar. The buckle provides an attachment point that can be quickly detached yet has recessed buttons that prevent accidental un-clippings when grabbed at the buckle by the handler or a suspect. It's constructed of mil-spec 1 3/4" webbing, most commonly used in parachute harnesses, which is quick drying, mold and mildew resistant. As the clip-in point we selected a large V-Ring that can be clipped with any commercially available attachment option including large diameter climbing carabiners.

FEATURES:

- + Heavy Duty Mil-Spec Webbing
- + 1 3/4" V-Ring
- + ISC Klick-Lock Buckle
- + Loop I.D. Panel

AVAILABLE COLORS:

SIZES:

Small: 13-17in (33-43cm)

PATROL HARNESS

Our Patrol Harness is purpose-built to handle the rigors of all day wear and tear. Its simple design makes it easy to use and it has everything you need—without unnecessary bells and whistles. It's constructed of mil-spec 1 3/4" webbing, most commonly used in parachute harnesses. The 1 3/4" ISC Klick-Lock buckle provides a secure and redundant attachment point that can be quickly detached but has recessed buttons that prevent accidental un-clippings. Loop covered Molle on the left and right sides of the harness allows the handler to attach accessories, pouches or affix department or unit identifiers.

FEATURES:

- + Heavy Duty Mil-Spec Webbing
- + ISC Klick-Lock Buckle
- + Integrated Handle
- + Padded Chest Plate
- + Double Pass Buckles
- + Loop Covered Molle

MEASUREMENTS:

Medium Harness:
Front Chest Strap: 24-31in (61-79cm)

TRACKING HARNESS

The Tracking Harness is made of durable mil-spec materials and climbing rated hardware—creating the strongest, most heavy-duty, tactical dog harness available. Our harness design offers a greater range of motion and allows greater airflow than traditional K9 vests. The rear chest strap makes this harness perfect for tracking as the rear strap allows the dog to be lifted safely and prevents the dog from backing out of the harness. Ergonomic shoulder straps and large padded chest piece are perfect for bite work and training.

FEATURES:

- + Heavy Duty Mil-Spec Webbing
- + ISC Klick-Lock Buckles
- + Integrated Handle
- + Padded Chest Plate
- + Additional Supporting Straps
- + Loop Covered Molle

MEASUREMENTS:

Medium Harness:
Front Chest Strap: 24-31in (61-79cm)
Rear Chest Strap: 22-26in (56-66cm)

1 3/4" Mil-Spec Webbing rated to 7,000 lbs
V-Ring Clip-in Points rated to 6,000 lbs

AVAILABLE COLORS:

PATENT PENDING • NOT RATED FOR CLIMBING OR RESCUE APPLICATION

RAPPELLING HARNESS

Our harness design uses the natural anatomy of the canine and extra wide straps to support the dog's torso as well as it's hind legs. The rear leg strap assembly ensures that the dog's hind legs are properly supported to prevent suspension trauma during lengthy vertical applications; while allowing them the freedom of movement necessary for continuous ground application without adjustment or removal of the assembly. The rear leg strap assembly is completely removable, giving the handler the freedom to use the same harness during normal operation and still be able to attach it quickly and confidently because there are fewer moving parts.

FEATURES:

- + Heavy Duty Mil-Spec Webbing
- + ISC Klick-Lock Buckles
- + Integrated Handle
- + Padded Chest Plate
- + Additional Supporting Straps
- + Removable Rear Leg Straps

MEASUREMENTS:

Large Harness:
 Front Chest Strap: 30-35in (76-89cm)

REMOTE POUCH

Designed to fit the Garmin Pro series Tri-tronics remotes (Pro 70, Pro 550 and Pro Trashbreaker), this pouch provides a secure and fully functional means of attaching your remote to your duty vest or belt. Our pouch is made out of heavy duty mil-spec webbing and is built to stand up to the harsh conditions of long exposure to the elements. While the pouch fully covers, protects, and secures your remote, it has been designed to properly expose the buttons and knob so you can operate your remote hindrance free. We provide a Molle attachment point that is easy to attach to a vest or belt.

FEATURES:

- + Rugged Mil-Spec Webbing
- + Secure Retention
- + Easy Button Access
- + Molle Attachment Options

MATERIALS:

Durable mil-spec webbing and elastic

AVAILABLE COLORS:

COLLAR LIGHTING SYSTEM

This system provides a secure, integrated way to attach a Core Survival HEL-STAR 5 EXO® tactical light to your Modern Icon Rigid Collar. We designed the corresponding Modern Icon light attachment pouch specifically for the HEL-STAR 5 EXO® and it's made to perfectly fit our 1.5" and 2" wide Rigid Collars. While the EXO has hook attachment built in, the pouch adds an additional layer of durability and security insuring that the light will not come off in close quarters situations. The laser cut pouch was designed to ensure all of the switches are accessible and all of the LED light modules are visible.

FEATURES:

- + 5 Integrated LEDs
- + Large On-Off Switch
- + Switch for Light Colors
- + Secure Attachment Pouch

AVAILABLE COLORS:

CORE SURVIVAL HEL-STAR 5 EXO® TACTICAL LIGHT:

Waterproof operation up to 66ft
Replaceable lithium C123 battery

POUCH MATERIALS:

Laser cut, laminated,
1000D Cordura

PVC US FLAG PATCH

Made of PVC for durability in any environment, these USA flag patches were customized to match the colors and sizes of our gear. The patches measure in at 1.5" x 2.5", which look amazing on our collars, but are large enough for harnesses or other gear. The patches are backed with a hook attachment panel.

AVAILABLE COLORS:

Black

Thin Blue Line

Coyote

OD Green

SPECIFICATIONS:

Made from durable PVC
Measures 1.5" x 2.5"
Hook attached on back

MI SHIELD STICKER

Whether you're in Law Enforcement, the Military, Public Safety or are a Discerning Citizen (if you're a contributing member of society), then to us you're all Icons others should look up to and try to emulate—you are Modern Icons. These 2" x 2.5" Die Cut stickers offer you an understated opportunity to identify yourself as such.

SPECIFICATIONS:

Die Cut Vinyl Sticker that is Laminated to protect against scratches, UV rays, rain and haters
Measures 1.93" wide by 2.5" tall

Inset: Tank @myleswithtank
in the Patrol Harness in black

I HEART MY MAL STICKER

Show the world what your Mal is capable of with our "I Heart My Malinois" sticker. The 6" x 2" sticker is printed on a clear, durable, vinyl so you can see though the break. Each sticker is laminated to provide superior UV resistance and scratch durability.

SPECIFICATIONS:

Die Cut Vinyl Sticker that is Laminated to protect against scratches, UV rays, and rain
Measures 5.94" wide by 2" tall
